AERO TT SYSTEM INSTRUCTIONS

IMPORTANT:

PLEASE COMPLETELY UNDERSTAND ALL USER INSTRUCTIONS AND SAFETY INFORMATION BEFORE USING THIS PRODUCT. AS WITH ANY HIGH TECH PRODUCT YOU WILL NEED TO ROUTINELY CHECK FOR LOOSE HARDWARE, CRACKS OR OTHER DAMAGE AND REPLACE ITEMS AS NECESSARY. DO NOT USE PRODUCT IF ANY OF THESE CONDITIONS EXIST.

PARTS INCLUDED

❶

Aero TT Bottle

❷

Aero TT Cage

❸

m5x12 Round Head
Screw / Washer combo

TOOLS REQUIRED

Torque Wrench
2- 14 NM

4mm
Hex Socket

A. MOUNTING TO BIKE

1. Ensure there is no existing hardware in the bike frame mounting holes. If present, please remove it before installing the cage.

2. Align the cage along the holes on the frame of the bike to find the ideal placement.

3. Using the supplied hardware, place the mounting screw + washers and attach the cage directly to the frame with a 4mm Hex wrench.

4. Tighten both cage screws to a maximum torque of 2.0 Nm (17.7 lbs-in).

5. Ensure the cage is securely attached and stable on the frame.

6. Insert the AERO TT bottle into the cage.

B. MAINTENANCE GUIDELINES:

- As with all cycling accessories, our cages and bottles require regular care.
- Leaving your bottle inserted in the cage for long periods of time can potentially deform and/or damage your bottle. Both of which can compromise bottle retention. We always recommend that you remove your bottles from their cages when not in use.
- Friction between the cage and bottle is an important component in bottle retention. Residue build up, dirt, impact damage, and scaring can all effect how well your cage works. Replace your bottle regularly.
- Periodically check the cage for any damage, particularly for cracks or scratches on the surface that could lead to degradation and weakening of the base material.

BOTTLE CLEANING INSTRUCTIONS:

Washing
- Rinse and wash your bottle after every use. Sugary energy drink residue is a breeding ground for bacteria and microbes.

Hand Wash
- Fill bottle with a small amount of warm dish soap water.
- Shake the bottle well and then squeeze water out through the valve.
- Next rinse thoroughly with cold water and stand the bottle upside down with the cap off to drain and dry.

BOTTLE BRIGHT CLEANING TABLET
- Fill bottle with warm water.
- Insert BOTTLE BRIGHT CLEANING TABLET or similar cleaning tablet.
- Let stand for 15 - 30 minutes.
- Empty and rinse thoroughly.

Odor Mold or Mildew present? Wash your bottle with baking soda and vinegar.
- Clean the bottle per instruction above.
- Add 2 tablespoons of baking soda into the bottle and half a cup of vinegar.
- Allow it to sit for 6-7 minutes and then scrub the inside with a bottle brush (available at most supermarkets).
- When clean, squirt the contents out through the valve.
- Thoroughly rinse the bottle and cap with fresh cold water and then stand upside down to dry.

NOTE – DO NOT FREEZE BOTTLE
